

SOLAR PUMP STATIONS

Pump stations are an integral part of an efficient solar system. The RESOL range of pump stations makes installation and operation easy because the unit has been pre-assembled and is ready to plug in. All the pump stations are housed in an insulated casing and offer many features. This brochure contains a selection of the most common models in this range. Please consult C-Mc Energy for the most suitable model for your specific requirements.

FLOWCON B, BS, BSL

- Twin line solar pump station prepared for integration with the RESOL DeltaSol BS.
- Pointer thermometers for flow and return
- Return flow line with ball valve and adjustable non-return valve
- Flowmeter with scale
- Safety bracket with safety valve and manometer
- Fill/Drain valve for filling and flushing system
- Wall mounting kit with screws and dowels

Model	Code	Price €
Flowcon BSL (full kit)	020-35210024	525.00

FLOWCON D2F

- Three line pumping station for systems with 2 collector fields (e.g. east/west facing)
- Flow and return thermometers
- Dial pressure gauge
- 3 or 6 bar pressure relief valves
- Flowmeter
- Filling and flushing unit
- Wall mounting kit

Model	Code	Price €
Flowcon D2F	020-608175WS6	750.00

FLOWCON S2F

- Three line pump station for systems with 2 stores
- Specifications as per the D2F

Model	Code	Price €
Flowcon S2F	020-608165WS6	750.00

FLOWCON DHE

Winner of the Inter Solar Design Award 2009

Twin line pump station incl. DeltaSol D controller
 Ultra fast and precise digital sensors measuring pressure, temperature and flow rate
 Flow and return thermometers • 6 bar PRV with manometer
 Integrated air-stop, isolation and check valves
 Built in 'leakage' and 'over pressure' adjustable safety controls that shut the system down if the pressure is too low (<0.7 bar) or high (>5.5 bar).
 New controller display that can show system status, measured values and balanced values
 Please note this pump station does **not** come with an integrated filling and flushing loop. Sold Separately.

Model	Code	Price €
Flowcon DHE	020-35210037	843.75
